

## PRESS RELEASE

# Leading Aerospace & Defense contractor Amentum partners with IFS to optimize technology offerings for mission-critical customers

Amentum will leverage IFS Applications to enhance support for global government procurement, asset management, supply chain, predictive maintenance, and more

**Chicago, May 6, 2020** – [IFS](#), the global enterprise applications company, announces a new partnership with [Amentum](#), a premier global technical and engineering services firm. Amentum will integrate IFS Applications™ into its solutions for its clients in the government and aerospace and defense sectors, including the U.S. Department of Defense, U.S. Air Force, U.S. Army, U.S. Navy, U.S. Department of State, U.S. Department of Energy, U.S. Department of Treasury, National Aeronautics and Space Administration, the Federal Aviation Administration, and its many commercial clients.

Amentum supports critical programs of national significance in areas including nuclear and environment; mission support and sustainment; threat mitigation; mission assurance; and strategic capabilities engineering in critical infrastructures, both in the U.S. and abroad. IFS capabilities will be integrated within the Amentum SupplyTRAC<sup>SM</sup> offering and will provide Amentum customers with leading-edge functionality for supply chain optimization, asset management, predictive maintenance, and procurement. Amentum SupplyTRAC<sup>SM</sup> is currently being leveraged as a comprehensive, integrated platform with numerous opportunities with the U.S. Government.

Amentum, based in Maryland and with a 20,000-strong workforce, was recently formed as an independent company following AECOM's sale of its Management Services business to a private equity partnership. Amentum has been using IFS Applications internally since 2018 for supply chain management.

“As extensive users of the IFS suite, we are excited to offer our customers this advanced platform for supply chain management to help them realize similar transformational business benefits,” said Ron Hahn Amentum’s Executive Vice President of Strategic Growth. “Through our strategic partnership with IFS, we are bringing new solutions to our government customers in defense and energy, as well as our commercial customers at locations around the world. These capabilities will differentiate us in the marketplace and enable our customers to achieve new efficiencies by applying this powerful technology to solve their unique and complex challenges.”

Scott Helmer, President, IFS Aerospace & Defense, added, “This new relationship with Amentum will bring the capabilities of IFS and SupplyTRAC<sup>SM</sup> to federal government and private clients globally. IFS has a long and successful track record of supporting organizations to meet stringent industry requirements such as sensitive and classified information handling in a broad set of areas including
